High quality mineral finish for interior with excellent breathability and ease of application, creates an antique effect and soft shades of color with a smooth and shiny look.

DECORATIVE FINISH WITH MARMOR EFFECT

High quality mineral finish for interior containing marble powder that allows to obtain the marmorino effect and multiple decorative effects. It has excellent breathability and ease of application.

DECORATIVE COATING WITH TRAVERTINE EFFECT

Paste mineral finish for high quality interior that reproduces effects and aspects of natural finishes such as travertine, monumental stones, multiple forms and material and chromatic effects of the past. Excellent water vapour permeability.

DECORATIVE LIME FOR INTERIORS AND EXTERIORS

MINERAL ECO-PAINT

Mineral finish for decorations of buildings of historical and artistic interest and for works in green building. It has a mineral opaque film with excellent water vapour permeability, excellent coverage and easy application.

MINERAL MARMORINO

Decorative finish to obtain marble material effects and chromatic shades, combined with excellent breathability and resistance to the formation of mold and bacteria. Product indicated as an ideal finish for the restoration of historic centres and in green building architecture.

MINERAL INTONACHINO

Mineral finish for the decoration of internal and external surfaces with excellent breathability and resistance to the formation of mold and bacteria. Product indicated as an ideal finish for the restoration of historic centres and in green building architecture.

CALCE D'EPOCA

Lime and lime putty are one of the oldest and material used for the decoration and finishing of surfaces. It is considered one of the most natural, ecological, healthy and sustainable material. Its correct use allows to obtain high quality walls and surfaces with high resistance and durability over time.

Thanks to their versatility, Calce d'Epoca products can adapt to any style of interior design and redevelopment of external facades, making them the perfect choice for those who want to create a sophisticated and timeless environment.
